QUALITY ALERT 

RPB, RPA and RPC Commercial Two Speed Coolers

Due to pending changes in some state safety regulations, as well as energy management becoming increasingly important to all Australian business Braemar Commercial 2 speed wall switches will now come standard with 2 Green Neon Indicators.

The individual neon's on the wall switch will illuminate to indicate when either the pump (cool) or the fan motor (fan) has been switched on. This will allow office and factory personnel to identify at a glance if the Coolers fan or pump are running.

All coolers manufactured from Serial Number C0902xxxx will have the new wall switch included.
